### **EXHIBIT 1**

### Proposed Amendments to Authorize the Use of Debit Cards

#### **Current Definitions**

NRS 463.01469 definition of Debit Instrument. "Debit Instrument means a card, code or other device with which a person may initiate an electronic funds transfer of money to a game or gaming device." There is no definition of Debit instrument in the NGC Regulations.

#### New definitions

Restate and clarify the statutory definition in the new regulation and include a provision that clarifies that Debit Cards are a type of Debit Instrument as follows:

NGC Regulation 1.092 (New Subsection)

Debit Instrument means a card, code or other device with which a person may initiate an electronic funds transfer or a wagering account transfer. The term includes, with certain stipulations, a Debit Card.

Create a new definition that recognizes Debit Cards as follows:

NGC Regulation 1.146 (New Subsection)

Debit Card means a card, code, electronic serial number, mobile identification number, personal identification number or similar device that allows patron access to funds, and can be retrieved or transferred at some point in the future through such a device. A Debit Card may only be used at table games under the following Stipulations:

- (1) Funds are accessible only by the patron using their personal "Pin-Debit Bank Card" and entering their personal PIN number.
- (2) Patron must produce identification that matches the name on the Debit Card.
- (3) A cap of \$1,000 will be placed on the total amount a patron can withdraw per table rating.
- (4) Once the patron has reached the \$1,000 cap, and has no more chips available for play, the patron will be required to physically get up from their seat and have their rating closed.

## Regulation 14 Amendments

Amend Regulation 14.260 as follows:

- 3. Except as otherwise provided in subsection 4, the chairman shall not grant an approval pursuant to subsection 1 or waive such approval requirement pursuant to subsection 2 with respect to any associated equipment that, when installed, will allow a patron to use a debit instrument for purposes of making electronic funds transfers from an independent financial institution to a gaming device through a cashless wagering system until such time as the appropriate regulations for such transfer are adopted.
- 4. The chairman may grant approvals pursuant to subsection 1 or waive such approval requirements pursuant to subsection 2 with respect to the use of a debit card in conjunction with preset stipulations.

Amend Regulation 14.290 by creating two subsections as follows:

- 1. Except as otherwise provided in subsection 2, or regulation 14.260(4), a licensee shall not install or use associated equipment without prior written approval of the chairman or His designee, unless the chairman has waived the approval requirement pursuant to subsection 2 of Regulation 14.260. Applications for approval to install or use associated equipment shall be made and processed in such a manner and using such forms as the chairman may prescribe. The chairman shall not approve any use or installation(s) of associated equipment that allow a patron to use a debit instrument for purposes of making electronic funds transfers from an independent financial institution to a gaming device through a cashless wagering system until such time as the appropriate regulations for such transfers are adopted.
- 2. The chairman may grant approvals for the use of or installation of equipment used in conjunction with debit cards provided there is a preset limit of \$1,000 per table per visit and the patron must physically get up from the gaming table and any and all ratings be closed before the patron may engage in any gaming / wagering at that table again.

# Technical Standard 1.010(9)

The definition of debit instrument is consistent with the new definition but new language should be added to be consistent with the above provisions as follows:

"The term includes, with certain stipulations, a Debit Card."
